Xyrrelle Faith A. Cauilan

Luna, Isabela, 3304 • cxyrrelle770@gmail.com • 0992 778 3523

Summary

Driven and passionate Computer Engineering student skilled in both software development, hardware prototyping, and troubleshooting. Experienced in troubleshooting networking issues and hardware components, designing circuits with Multisim, and developing microcontroller projects with Arduino.

Technical Skills

- **Programming:** Python (Pandas, NumPy – basic), C++ (academic background)
- **Database:** SQL (SELECT, WHERE, GROUP BY), ER Diagrams, Relational Database Concepts
- **Networking:** Installing and configuring computer systems, setting up computer networks, setting up computer servers, and maintaining and repairing computer systems and networks

Education

CAGAYAN STATE UNIVERSITY – CARIG CAMPUS Carig Sur, Tuguegarao City, Cagayan

BS in Computer Engineering **2023 – Present**

Academic Projects

Project Fire Life-saving Alarm with Message Encrypted System (FLAMES) [Class Project]

- Collaborated in developing a prototype that detects smoke and fire, alarming the individual inside an infrastructure, and sending a message to authorities about the situation.
- Assisted in ensuring the connections were correct, securely connected, and soldered.
- Initiated the making of the research's paper.

Online Administration Software for Information Supervision (OASIS) [Class Project]

- Contributed to the website's graphical design and functions.
- Collaborated with peers in developing a website built on a Website Builder that collects and stores data that are essential for both the students and teachers.
- Initiated the making of the research's paper.

Computer Engineering Alumni Job Portal [Class Project]

- Collaborated in developing a web-based platform connecting alumni with job opportunities.
- Contributed to the website's graphical design and functions.
- Initiated the making of the research's paper.

Eco-Charge [Class Project]

- Collaborated with peers in developing an energy-efficient and eco-friendly alternative charging station.
- Assisted in the hardware developments.

Initiated the making of the research's paper.
